

Wiley Registry® 12th Edition/ NIST 2020 Mass Spectral Library

The broadest combined library available with over 2 million EI and LC-MSⁿ mass spectra

The combined **Wiley Registry 12th Edition/NIST 2020 Mass Spectral Library** is the most comprehensive mass spectral library available, making it an essential tool for general unknown compound identification. Included in the combination package are:

- Over 1 million EI mass spectra
- Over 1 million searchable chemical structures
- Over 840,000 unique compounds

Experience improved spectral search performance with the Wiley Registry 12th Edition/NIST 2020 Library. Replicate spectra and over 3 million chemical names and synonyms provide a higher rate of correct identification and ensure that this library can aid in classical EI, exact mass, and other methods of identification.

Specifications

	GC-MS Data			LC-MS Data
Library	Wiley Registry 12 th Edition	NIST/EPA/NIH 2020	Wiley Registry 12 th / NIST 2020 GC-MS Total*	NIST MS/MS 2020
Spectra	817,000	350,000	1,088,000	1,320,000
Chemical Structures	785,000	350,000	1,056,000	30,000
Unique Compounds	668,000	306,000	843,000	30,000
Ions	---	---	---	185,000

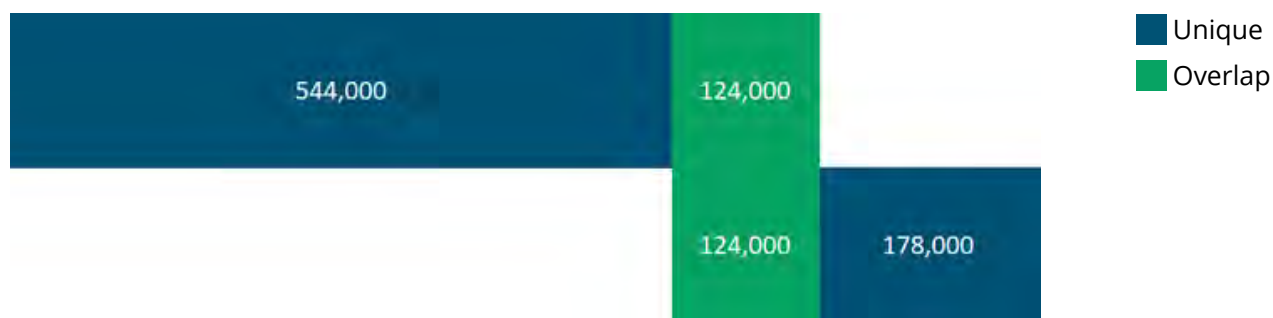

*Total GC-MS counts for WR12/N20 found from total WR12 plus N20 minus overlap

Compound Coverage

Compound coverage for individual compounds can be verified at www.compoundsearch.com

Wiley Registry 12

NIST 2020

Compatibility

Agilent (ChemStation, MassHunter, OpenLab*)	PerkinElmer TurboMass
Bruker MS Workstation*	Scion MS Workstation*
Chromatec Analytic*	Shimadzu GCMSsolution
JEOL msFineAnalysis*	Thermo Chromeleon* TraceFinder* Xcalibur
Leco ChromaTOF*	Waters MassLynx
NIST MS Search	

Other versions available:

ACD/Labs ACD/Spectrus Processor**

The NIST EI MS data segment of this collection along with the Wiley Registry is also available as part of Wiley's KnowItAll Mass Spectral Library subscription.**

*Compatible with the NIST Format **Subscription required
